# NEW ROCK ISLAND HEAD

T. M. Schumacher Chairman of Board and Executive Body.

IS PHELPS, DODGE & CO. MAN

### Official Personnel of Railway Company Unchanged-Other Shifts in Companies.

Official confirmation was made following a meeting of the directors of the Chicago. Rock Island & Pacific Railway Company yesterday of the changes in the management predicted in The Tribune.

T. M. Schumacher, vice-president of the El Paso & Southwestern Railroad, was elected chairman of the board and of the executive committee to succeed Daniel G. Reid and William H. Moore, thus placing a representative of the Phelps-Dodge interests in direct control. Mr. Schumacher was made a director of the railway company, succeeding W. T. Graham, and was also elected chairman of the Rock Island Company board of directors in place of Daniel G. Reid. The Rock Island Company owns all the stock of the Chicago, Rock Island & Pacific Railroad Company, which in turn owns practically all of the railway company's stock.

James McLean, vice-president of Phelps, Dodge & Co., was added to the executive Speyer & Co. Thank Bondholdcommittee of the railway company, giving the Phelps-Dodge interests three representatives on this committee, Arthur Curtiss James already being a member. According to the official announcement made yesterday, the election of Mr. Schumacher to the chairmanships mentioned was at the request of both Mr. Reid and Judge Moore. There were no changes in the official personnel of the railway company, H. U. Mudge remaining as president. Edward S. Moore was elected vice-president, a new office. The company's statement

There is no change whatever in the control of the Rock Island and its subsidiary lines, nor in the cordial relations that have existed between the dominant interests in these properties. Mr Schumacher will give his entire time and attention to the affairs of the company and will spend the greater part of his time in the West. Mr. Schumacher is well and favorably known in Western railroad cir-

favorably known in Western railroad circles, as well as by New York financial interests."

Mr. Schumacher will not resign as vice-president of the El Paso & Southwestern, it was learned, but will establish a closer relationship between that road and the Rock Island. It was denied that Phelps, Dodge & Co. are contemplating the injections of the property at a whole was limited to the industrial as well as by New York financial interests. Speyer said yesterday that if necessary and supply money for carrying out the improvements and betterments which improvements a

## Three Brokers Suspend-Two Bank-

### ers in Difficulties. Berlin, Oct. 29.-The Boerse was char-

acterized by acute weakness to-day. Three small brokers suspended, but this did not attract much attention, as their operations were not large, but two rather important bankers had difficulties in arranging their differences. It was feared at one time that they would be forced to suspend payment, but they succeeded in iding over.
The difficulties experienced by these

firms were brought about by the heavy drop in prices during the month. A considerable number of execution sales occurred to-day for firms unable to meet their differences in Hansa Steamship, Russian Naphtha and other shares.

### REA DENIES FRICTION TALK Pennsylvania Road's Head Sets at

### Rest Steel Rumors. The statements that there is friction in

the board of directors of the Pennsylvania Railroad Company, growing out of negotiations to sell holdings of the Cambria Steel Company's stock, were positively denied yesterday by the road's president, Samuel Rea, who is now with the directors inspecting the lines west of Pittsburgh. Mr. Rea also said there is absolutely no

truth in the statement that Henry C. Frick is dissatisfied or that he will retire from the board.

How far the cotton market is influenced by weather conditions was shown in yesterday's trading, when fair and warmer predictions caused considerable early selling on the strength of possible increases in receipts and heavier spot offerings. This selling was encouraged by an elaborate analysis of the recent ginning figures which made them show practically a crop of fifteen million bales. On an elaborate analysis of the recent ginning figures which made them show practically a crop of fifteen million bales. On a decline of about 35 to 38 points from the recent high level offerings were well taken care of, and there was a rally of several points from the lowest. New Orleans was a little easier after our close, although there were private reports that exporters were good buyers of January and December on the decline. Southern spot markets and sales and and partial reaction, that and higher, but had a partial reaction, that and higher, but had a partial reaction, that and higher, but had a partial reaction, that and but the fire several prices being % 6 ac net light or levels to come out in very moderate quantities. The advance placed the market still further above an export basis, but there were orders in evidence for Canadian wheat, and sales came to light of about 25 to add, part late on Tuesday. FLOUR AND MEAL.— The strength in wheat resulted in a firmer tome to flour, but buyers were indifferent, and business was small. The following prices in wood are quoted on the New York Produce Exchange: Sortes patents, \$4 45@\$4 85; winter straights, \$4 25@\$4 35; winter patents, \$4 45@\$4 80; spring clears 

the opening being 5 points higher to 3 points lower, while final figures showed a net loss of 195 points. Sales were 78,250 bags. Europear lower, while final figures showed a net loss of 1875 points. Sales were 78,250 bags. European markets were firm early, especially Havre, which was 181½ francs higher, but an easier feeling developed, and at the close Havre was net unchanged to ½ franc higher, and Hamburg was unchanged to ½ pfennig lower. Brazilian markets were firm, Rio being 50 reis higher, and Santos showed gains of 50 filoreis Cost and freight offers from Brazil were firm at ½6 ½c advance from Tuesday, with Rio 7s quoted at 10½ c and Santos sk at 12,95c. These prices were somewhat above an option basis, but on Tuesday there were quite liberal sales of Rio at slightly below a parity, and it is the prevailing belief that the resistance shown recently to buillish advices is due largely to pressure of Rio offerings on the market. Rio coffees are not popular in Europe and are not deliverable on contract in the Havre and Hamburg markets, while New York is on a Rio basis, and the differences at present are unusually wide owing to a disposition on the part of Brazil to offer Rios freely. Stocks of Rio coffées in Brazil are now 469,000 bags, compared with 299,000 a year ago, and so far this season there have been 883,000 bags marketed, against 1,265,000 a year ago, while the marketing of Santos aggregates 4,255,000, against 3,529,000 bags last year. Spot market quiet and unchanged, with Rio 7s quoted at 10% c. Local contract prices:
